

Google Extensions, Apps and Add-ons

February 2018

Overview of Google Chrome Tools

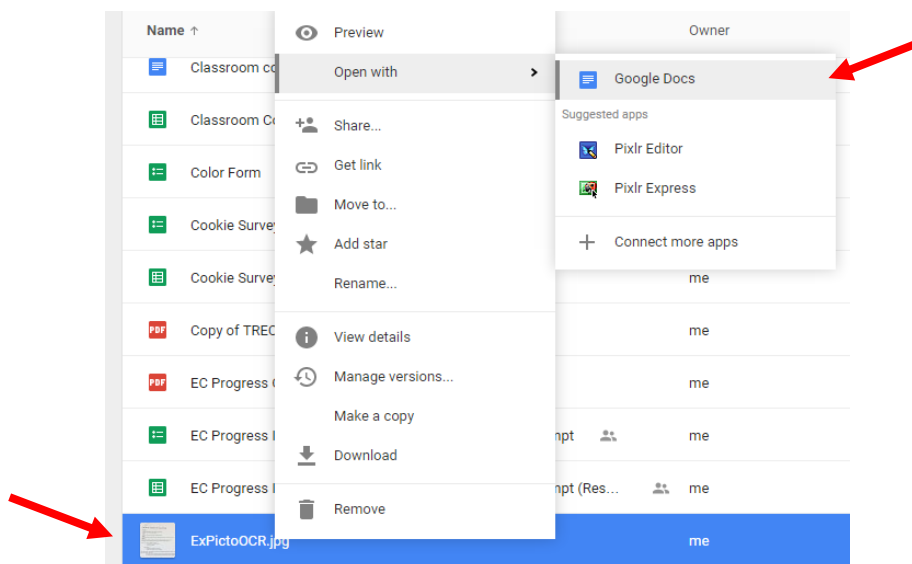

- Google Chrome Extensions (show up to the right on Chrome browser toolbar)
- Google Chrome Apps (links to Google products – waffle next to your picture)
- Google Chrome Add-ons (extra features inside Google Docs, Sheets or Forms)
- Log in to Chrome Browser vs. logging into Drive/Gmail on website

Read and Write for Google

- Floating toolbar available in Chrome as an extension
- Free for teachers, **speech only free for students**
- Features include text to speech, pop-up/picture dictionary, highlighter feature, and a vocabulary list for reading help. Writing supports include word prediction, speech to text, and pdf reader. Web features include removing all ads and pictures.
- [Download at Chrome webstore](https://www.texthelp.com/en-gb/products/free-for-teachers/). Teacher registration for free subscription:
<https://www.texthelp.com/en-gb/products/free-for-teachers/>

Using Google Drive to convert picture of text to digital text

- 1) Log into Google Drive
- 2) Select New – File Upload
- 3) Browse to the picture of paper sheet (usually a jpeg or PDF) and upload
- 4) In Google – right click on the jpeg and select “Open with – Google Docs”
- 5) The image and digital text are now in the document.
